

**Letter by Janet Yurus**

Sept. 13, 2023

I am 67 years old and have many health issues. Just from July 11, 2023 to August 7, 2023, I have been in the hospital twice. In July I had a cancerous tumor removed from my stomach along with a portion of stomach, gallbladder, and spots on liver. Then in August I had a heart attack. Some of my sicknesses include a pacemaker, melanoma, knee replacements, hip replacements, plus many other things. I cost five times of the amount that they receive for me. I filed a Joe Coleman but was denied because I am not dying. I have done 18 years and have 4 children, 11 grandchildren and a great grandchild on the way. Could you please tell me what I can do so I don't die in here?

Thank you,

Janet Yurus

R86711

My clemency has been on governor's desk for two years.

Born 7/8/1956

Custody Date 6/13/2005
